

Recording Transactions in Adamrit

Staff guide - Hope Multi-Specialty Hospital and Ayushman Nagpur Hospital - issued 6 Aug 2026. Based on an audit of 2,199 vouchers posted between 6 Jul and 5 Aug 2026.

The golden rules

1. Never type a voucher by hand. Every transaction below has its own tile or screen that posts the accounting automatically. The manual Tally Voucher Entry screen is only for corrections approved by accounts, and every manual voucher is visible in the Day Book without the AUTO badge.

2. Money follows the patient's hospital. Wherever you search a patient, a Hope / Ayushman switch is above the search. The books that receive the entry are always the hospital you searched in - not the login.

3. Every payment is made against an invoice. If there is no invoice on the Expense Bill page, raise it first (it posts its own journal). Part payment is fine: type any amount up to the outstanding; the invoice stays listed until fully paid.

4. Your name is on everything you post. Every tile records who did it, and the Day Book, Account Logs and the voucher edit log show it. Past bills open only with the office PIN.

Money coming IN

What happened	Where you record it	What posts by itself	Last month
Patient pays an advance or settles a bill	Final Bill page / Advance tile (Arshiya)	Receipt voucher into the company bank + income ledgers	1,047 receipts, Rs 48.2 lakh
Pharmacy counter sale	Pharmacy billing	Pharmacy receipt; medicine returns post credit notes	included above + 4 credit notes
Panel / corporate / Yojana money arrives	Shashank Payment Received tile; Corporate Receipts page	Receipt voucher against the panel's ledger	part of receipts above
Yojana bill raised on a panel	Yojana bill flow	Sales voucher (income accrual)	48 sales, Rs 18.1 lakh
Bank interest credited	Bank & Cash tile - "Bank interest received"	Journal: Dr Bank / Cr Bank Interest Received	new this week

Money going OUT

What happened	Where you record it	What posts by itself	Last month
Supplier / utility / any vendor invoice arrives	Expense Bills tile (or Tilak's "Raise expense bill")	Journal: Dr expense / Cr supplier. Invoice waits on the Expense Bill page	27 GRN purchases + bills
Paying an invoice (full or part)	Expense Bill page - Pay (behind PIN); Daily Payment Allocation	Payment voucher per payment, linked to the invoice	620+ payments, Rs 28 lakh
Salaries, rent, electricity, the six mandatory daily parties	Daily Payment Allocation (they appear every day automatically)	Payment voucher per allocation	509 payments
Surgeon / anaesthetist fee after OT	Automatic on OT completion, then Accounting Approvals	Bill auto-raised; approving posts the journal with anaesthesia type and patient class	80+ journals

Doctor's OPD / IPD / day-care visit fee	Rupali tile (records) then Akshay tile (pays by doctor QR or cash, proof photo uploaded)	Journal per visit; payment voucher per payout against those journals	new this week
Referee cut / spot commission	Director Dashboard DRR Approve; Spot tile (max Rs 8,000); Implant Calculation tile (Azhar, with calc-sheet photo)	M.L. Enterprises invoice on the hospital + sale and commission journals in ML books	50 journals, Rs 0.8 lakh
Patient sent to outside CT / MRI / lab	Diagnostics tiles (Nisha - Hope, Chetna - Ayushman)	Centre's invoice + journal; requisition and invoice print from the tile	new this week
Bank charges debited	Bank & Cash tile - "Bank charges"	Journal: Dr Bank Charges / Cr Bank	new this week

Cash, bank and between the hospitals

What happened	Where you record it	What posts by itself
Counter cash deposited into the bank	Bank & Cash tile - "Cash deposited"	Contra voucher (previously 5 hand-typed contras a month - now none needed)
Cash withdrawn from the bank	Bank & Cash tile - "Cash withdrawn"	Contra voucher
One hospital pays the other's expense	Payment Voucher screen - tick "On Behalf Of ..."	Payment voucher in the payer + linked journal in the other company; deleting the payment removes the journal

Announcements and approvals that come before money

What happened	Where you record it	Why
A referee says a patient is on the way	Incoming Referrals tile (Suraj / Arpit) - announce with documents	Everyone sees the claim; link it to the registration when the patient arrives - no double claim
Spot commission at admission	Spot tile (Azhar / Arpit / Suraj) - approve up to Rs 8,000	The 8,000 ceiling is enforced by the database itself
Discharge settlement: direct or referred?	Implant Calculation tile (Azhar) - every discharged patient, both hospitals, daily	One decision per patient; photo of the handwritten calculation becomes the invoice document

Who is recorded, and what is locked

User log. Every voucher stores who created it; tiles pass your login automatically, and from 6 Aug the manual screen also records the typist by name (older manual entries said "system" but kept the name in last-modified-by). Edits are tracked in the voucher edit log and the Account Logs page. Register payment stamps (Akshay payouts) can only be written by the payment function - not by hand.	PIN lock. Past bills - the Expense Bill pages, Old Bills and View Bill - open only after the office PIN. One unlock lasts until the tab closes. The M.L. Enterprises company is hidden behind the same PIN.
---	---

Last-month evidence: 2,199 vouchers - 97.6% posted automatically by tiles and triggers; the 53 hand-typed ones (mostly bank deposits and vendor payments) all have a tile today. If you find a transaction with no tile, report it - do not type it.
